## PROFESSIONAL SUMMARY

Full Stack Developer (MERN) with strong hands-on experience in building responsive web applications using React, Node.js, Express.js, and MongoDB. Skilled in modern JavaScript (ES6+), RESTful APIs, authentication, and state management. Developed real-world projects including a job portal, AI chatbot, and movie discovery platform. Passionate about writing clean, scalable code and continuously learning new technologies.

## TECHNICAL SKILLS

**Frontend:** React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Next.js, Typescript, Responsive Design

**Backend:** Node.js, Express.js, RESTful API Development, Server-side Rendering, Authentication & Authorization

**Database:** MongoDB, Mongoose

**Tools & Technologies:** Git, GitHub, Postman, VS Code, Netlify, Vercel, Render

## EXPERIENCE

### Detechie Digital Academy Pvt. Ltd

Frontend Developer Intern

Remote

6 Months

- Worked on real-world projects using React.js and Next.js to build modern web applications
- Implemented UI/UX designs using Tailwind CSS, ensuring pixel-perfect responsive layouts
- Built responsive, reusable, and production-ready UI components following best practices
- Collaborated closely with development teams to deliver project modules on time

### Alps Insurance

Developer Training

Delhi, India

1 Week

- Learned fundamentals of modern web development workflows and industry-standard practices
- Understood real-world project structure and coding standards used in professional environments
- Assisted developers with minor frontend tasks and bug fixes
- Gained exposure to professional team workflow and development cycle

## PROJECTS

### Movie Discovery Platform | React.js, Tailwind CSS, JavaScript, REST API Integration

- Developed a responsive movie browsing website using React.js and Tailwind CSS, implementing login/signup functionality with client-side authentication using localStorage
- Fetched dummy movie data from a data.json file to build movie listings, search functionality, and genre/year-based filtering, along with detailed movie pages
- Utilized React Hooks for state management and created reusable components such as movie cards, search bars, and user profile sections to ensure smooth navigation and optimized UI performance
- Designed a modern and mobile-friendly user interface using Tailwind CSS, focusing on intuitive layout, fast rendering, and seamless browsing experience across devices

### Job Portal | React, Node.js, Express.js, MongoDB, JWT, CORS, Tailwind CSS

- Engineered a comprehensive job portal platform connecting employers and job seekers with role-based access control, JWT authentication, cookie-parser for session management, and CORS middleware for secure cross-origin resource sharing
- Designed RESTful API architecture with Express.js handling job postings, applications, user profiles, and search functionality with MongoDB for efficient data storage, retrieval, and query optimization
- Built responsive user interface with Tailwind CSS featuring separate dashboards for recruiters and job seekers, advanced job search filters, and real-time application status updates across all devices

## EDUCATION

### ACMT Group of Colleges

Diploma in Computer Science Engineering

Delhi, India

August 2023 – July 2026 (Expected)

### Dice Academy

Full Stack Developer

Delhi, India

Completed
